« Welcome to PLIC BOOKS »

You will receive an email when a PLIC Books account has been created for you. Click the ACCEPT INVITATION link to take you to the registration site. Your account will not be created until you access this link and create a password.

Please keep a reference of your username and password.
Inter-State Studio is not able to look up your password information.

« SYSTEM REQUIREMENTS »

PLIC Books is a web-based yearbook software. This means you can use it on any computer with access to the internet. We recommend using Chrome as your internet browser. PLIC Books will not work with Internet Explorer.

A quality internet connection is also required to submit your completed yearbook for processing. We recommend being connected to the internet via hardwire, rather than through a wireless connection, to ensure accuracy of your orders.

Setting Up USER ACCOUNTS

PLIC Books has the ability to have more than one person working on the book at the same time. While working on your book, you may see a notification of someone else logging on.

Follow these steps to create additional users to help you build your yearbook:
(By default, you will initially be the only user listed under the USER MENU).

+ Create User

The screenshot shows a 'Create User' form with the following fields and options:

- Account Type:** Standard
- Full Name:** Full Name
- Email:** Email
- Organization:** Organization
- Role:** School Advisor, User, Proofer, Photographer, Candid Tagger

1. Click the green **CREATE USER** button.
2. Complete the requested information for the new user including their Full Name and Email Address.

Users can also be created without an email address by changing the Account Type to Sub Account.

4. Assign a **ROLE** to this user.

The following roles can be assigned:

« Advisor PAGE CONTROL »»

To help with yearbook management, PLIC Books offers the following features:

« LOCK PAGE »»

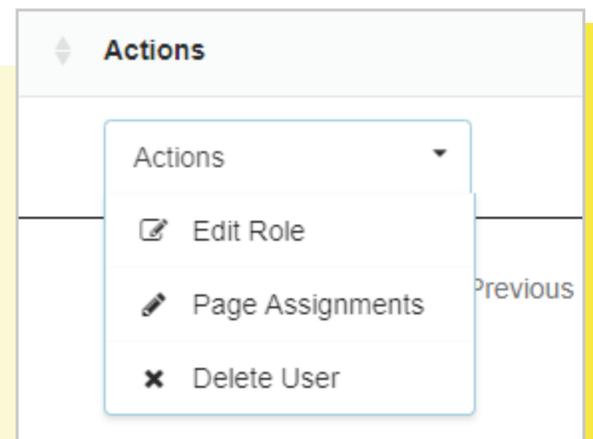

Advisors can lock/unlock a page by clicking on the Lock icon in the upper corner of the page. This prevents anything from being changed or from the page being moved.

« PAGE ASSIGNMENTS »»

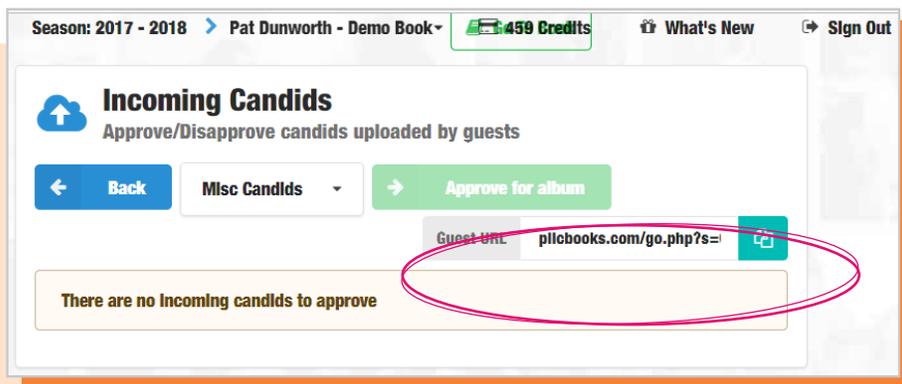

Advisors can assign specific pages to user roles. Users will only be able to see and edit their own pages. Click the drop-down arrow under the actions column next to the user name and choose Page Assignments. Check or uncheck pages you want that user to work on. Click the green SAVE button at the bottom or CANCEL to leave without making changes.
